DETAILED ACTION

Allowable Subject Matter

1. Claims 57-60, 62 and 64-74 are allowed.

2. The following is an examiner's statement of reasons for allowance: The closest prior art used in the application is Thomas (US 6,832,211). Thomas performs an multivariate regression analysis on historical price data using various history price technology indicators/variables (patented technology, R&D, research sales, etc) to target valuations of a company's stock based upon their technology to identify investment opportunities in the stock market. The Thomas reference fails to suggest, as in claim 57, "... wherein said historical price data comprises data for a plurality of price-related time-dependent variables, electrically performing a multivariate regression analysis on said historical price data; and electronically calculating at said effective valuation time a fair value of said first security based on said multivariate regression analysis and on values of at least two of said plurality of price-related time-dependent variables."

As in claim 72, "electronically receiving historical market data for a plurality of financial asset market based time-dependent variables other than prices for said first security..."

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 09/835,605

Art Unit: 3624

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Daniel S. Felten whose telephone number is (571) 272-6742.

The examiner can normally be reached on Flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Vincent Millin can be reached on (571) 272-6747. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
